### **Finding Dictionaries in On-line Library catalogs**

Finding dictionaries in an on-line catalog simply requires knowing the standard Library of Congress subject headings for this kind of reference tool. There are several subject heading formats which lead to general language dictionaries and dictionaries of terms about a particular discipline.

#### **To find general dictionaries use the following subject format:**

[language name]--Dictionaries.

Example: Estonian language--Dictionaries.

#### **To find dictionaries that translate from one language to another:**

[language name]--Dictionaries--[language name]

Example: Polish language--Dictionaries--English language.

#### **To find dictionaries on a particular subject in a foreign language:**

[discipline name]--Dictionaries--[language name]

Example: Computer Science--Dictionaries--Ukrainian language.
